WHAT IS THERAPY?

Talking to someone who is a skilled listener can help you to overcome emotional difficulties and free you from self – destructive ways of feeling, thinking and behaving. It works by providing an opportunity for you to talk in a way that enables you to understand yourself better. Having gained this understanding, you can work towards living your life in a more positive way.

Cognitive Behaviour Therapy (CBT) can help you look at:

- How you think about yourself, the world and other people.
- How your actions affect your feelings and thoughts.

HOW OFTEN ARE SESSIONS HELD?

Sessions are arranged to meet your needs. This is usually every week in the first instance and may change throughout the course of your therapy. Each session will be for up to one hour.

CONFIDENTIALITY & REGONISED STANDARDS

Counselling is a private and confidential form of help.

We work to the code of conduct, ethical principles and guidelines of the BACP (British Association for Counselling & Psychotherapists)

Our whole service is accredited by BACP, which includes the privacy of our counselling rooms and our administrative team.

Relate, Hull & East Yorkshire have achieved the eQuality charter-mark Level One for Improving services for, lesbian, gay, bisexual and transgender people.

Whilst we offer the majority of our appointments in Hull, we do offer appointments at various locations throughout the East Riding.
